- Board Member Scott Hackenburg and Community attendee submitted parking ideas and maps which were discussed.
    - Looking into widening the main gate entrance to have an exit lane: will need to bordering easements, location of pipes marked, will need to make sure steep entry is accessible for all vehicles in order to have 3 lanes. May widen at the top until it can be better looked into.
    - Creating a flow and parking organization
    - Will get more scanners for gates for ease of entry for the fair and other events, it is an app

Public Comments:

- George commented he was like the recent event outcome. We continued parking ideas and options. There was group discussion on the following:
    - Block one lane of 21 since people park on the side and it will also make it easier to utilize those gates for exiting. However, that would bring in needing state permission.

- Get lighting and designating crossing points on 21
- Setting up slow down and event signs

Call for an Executive Session:

- None

Motion to Adjourn:

*Scott Hackenburg motion to adjourn the meeting, Tammy Brookover 2nd, all approved, and motion carried.
